Related event. Per Work Exercise from Annuel Meeting 21:24 (Jan 2000, Saves Kosenn Gesterland)	Description Propriet Owner more	

2. As you can see, you are given the choice by the platform between **3 formats**:

Broadcast: h264 crf HD 1980x1080 (.mp4) **Social Media**: h264 crf 1280x720 **Audio only**: AAC 192kbps (.mp3)

3. Select the requested format, check the **general terms and conditions** and click on **EXPORT** (bottom right):

How to download an extract

1. Select the **Timeline** view (highlighted by default in orange) and drag the mouse below the player to select the part of the media you need:

2. Your selection will be highlighted in red. Right-click on it, and chose "**Play In-Out**" to preview your clip, then "**Export**" to download it:

3. The platform provides the 3 following formats:

Broadcast: h264 crf HD 1980x1080 (.mp4) **Social Media**: h264 crf 1280x720 **Audio only**: AAC 192kbps (.mp3)

The format suggested by default here is **Broadcast** quality. Click on it to access the other options :

4. Check the "general terms and conditions", and click on "Export" (bottom right):

Delivered formats
